LITE TO OFFER TECHSOUTH PARTICIPANTS THE VIP TOUR

February 27, 2008, Lafayette, LA -- Louisiana Immersive Technologies Enterprise will offer VIP tours of the advanced visualization and high-performance computing center to TechSouth participants on April 8 and 9, 2008.

Tours will be offered on both Tuesday, April 8 and Wednesday, April 9 with TechSouth offering complimentary transportation back and forth from the Cajundome Convention Center to LITE, which is less than two blocks away.

Tour registration will take place at the TechSouth registration desk in the lobby of the Convention Center. The tours are complimentary.

About LITE:

LITE (Louisiana Immersive Technologies Enterprise) is one of the world's leading 3D immersive visualization and high-performance computing resource centers hosting clients in commercial industry, government, and university sectors. LITE's leading-edge not-for-profit facility features a comprehensive set of advanced visualization systems including the world's largest 3D immersive visualization theatre and one of the world's first six-sided digital 3D total immersive space (TIS) based on CAVE® technologies.

As one of the most tightly integrated installations ever assembled, LITE features three graphical supercomputers, one of which is a 4.1 Terabyte of RAM system. The facility also offers access to high-speed networking. The center's multiple data visualization environments afford organizations access to essential decision-making tools that transforms the process of innovation and accelerates their time to discovery. LITE is a Louisiana state entity (commission) governed by a Board of Commissioners. Conceived as a magnet for economic development, the resource center provides access to leading-edge virtual reality (VR) design and essential decision-making technologies, which represent powerful business and research tools.

The Louisiana Immersive Technologies Enterprise (LITE), Lafayette Parish Consolidated Government and Lafayette Regional Airport are partners in a concerted technology-centered economic development effort in the Acadiana region of South Louisiana. The Lafayette area has a growing economy with a workforce, incentives and infrastructure designed to attract new businesses specializing in technological advancements.
